µg/m ³	Micrograms per Cubic Metre

- **Activity rate:** Proportion of the active population (employed and unemployed population) in the working age population (15 to 64 years).
- **Chained euros:** Way to measure the change in volume after removing the effects of the price changes for the calculation of various economic aggregates (source: NBB).
- **Employment rate:** Resident employed population as a percentage of persons of working age (15 to 64 years).
- **Enterprise births:** Number of enterprises that are VAT registered on 31 December, whereas the year before, on the same date, they were not.
- **Enterprise deaths:** Number of enterprises that are no longer VAT registered on 31 December, whereas the year before, on the same date, they were.
- **Fertility rate:** Number of children that would be born to a woman over her lifetime if she was to experience the age-specific fertility rates recorded for the year under consideration (total fertility rate).
- **HERMREG:** Multi-sectoral macroeconometric model offering medium term projections of the different aggregates at Belgian regional level.
- **ILO unemployed:** Economically active persons who are without work, available for work and actively seeking employment.
- **ILO unemployment rate:** Proportion of ILO unemployed persons in the economically-active population (employed and unemployed persons) aged 15 to 64 years.
- **Interdecile ratio:** Ratio between the lower income threshold of the richest 10% (9th decile or D9) and the upper income threshold of the poorest 10% (1st decile or D1).
- **Internal net migration:** Difference between the total number of internal arrivals (from other Belgian Regions to the BCR) and the number of total internal departures (from the BCR to other Belgian Regions).
- **International net migration:** Difference between the total number of international immigrations and the total number of international emigrations.
- **Natural balance:** Difference between the number of births and number of deaths recorded over a given period.
- **Office vacancy rate:** Surface of built offices that are for rent or sale on the office market, in relation to the total surface area of the existing office park.
- **PMC packaging:** Large and small Plastic bottles, Metal packaging and beverage Cartons.
- **Private household:** Group of people habitually living together in the same dwelling, who has no collective character (monastic communities, retirement and nursing homes, prisons...).
- **Resident employed population:** Population in employment.
- **Technological and non-technological innovation:** Technological innovation is the introduction of a new or improved product or process. Non-technological innovation consists in the implementation of a new marketing or organizational method.
- **Unemployed job seeker:** Person without paid employment registered as a job seeker with a public employment service.

The Brussels Institute for Statistics and Analysis (BISA) centralizes and distributes statistics on the Brussels-Capital Region. The BISA also conducts socioeconomic studies on Brussels-related issues and supports the Government in evaluating public policies.
